Product Description

Antisera to Sarcoplasmic Calcium Binding-Proteins

Product: Antisera to sarcoplasmic calcium binding-proteins.

Code No: **SCP**

Form: Lyophilized antiserum

Swant commercializes following antisera against SCP's:

1. Affinity purified antibodies against amphioxus SCPI and SCPII
2. Affinity purified antibodies against crayfish SCPI
3. Affinity purified antibodies against sandworm (Nereis) SCP

Quantity: 200 µl.

Reconstitution: with 200 µl bidistilled water

Storage: Freeze in small aliquots (e.g. 1 or 10 µl) and keep at -80°C. Avoid repeated freezing and thawing.

Working dilution:

The antibodies can be used at a dilution between 1:1'000 and 1: 5'000.
