# Product Description

## Rabbit anti Calcineurin A

**Product:** Rabbit antibody to the A-subunit ( $\beta$ -isoform) of Calcineurin.

**Code No.:** MK A/Cn

**Lot No.:** 31.1

**Form:** Lyophilized purified IgG.

**Quantity:** 200  $\mu$ l.

**Reconstitution:** with 200  $\mu$ l bidistilled water.

### Description

This antibody was produced against the purified  $\beta$ -isoform of calcineurin. It is strictly specific for the  $\beta$ -isoform and does not recognize the  $\alpha$ -isoform.

### Working dilutions

Immunohistochemistry: 1:5'000 - 1:10'000 with the avidin-biotin method.

In immunoblots the antibody at a 1:1'000 dilution recognizes less than 10 ng of the  $\beta$ -isoform of calcineurin (avidin-biotin method).

We recommend that the optimal dilutions be determined by titration experiments.

### Storage

For long storage, keep at - 80°C (or at least - 20°C). For continuous use keep at 4°C (with 0.01% Na-azide). Avoid repeated freezing and thawing.
